DETAILED ACTION

Priority

1. Applicant has not complied with one or more conditions for receiving the benefit of an earlier filing date under 35 U.S.C. 119(e) as follows: instant application was filed later than 12 months of provisional application's filing date.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-25 are rejected under 35 USC 102(b) as being anticipated by Ginter et al. (patent 5,910,987).

Ginter et al. teach all the limitations of Claims 1-25. For example, Ginter et al. disclose systems and methods for secure transaction management and secure chains of handling and controlling of electronic works using a virtual distribution environment. Ginter et al. disclose: creators, distributors, and users of electronic works, an electronic content container, container content objects, metadata that describes the electronic work, remotely distributed databases, and database linkage to electronic works supported by web protocols (e.g. HTML, HTTP, and URL) (see at least abstract; Fig. 1 (200); Fig. 1a (200g); Fig. 2 (100); Fig. 2 (106, 112, "Added"); Fig. 5a (300); Fig. 12a (1220, 1230); Fig. 16 (METHODS 1000); col. 1, lines 1-43; col. 2, line 25 through col. 47, line 62; col. 100, lines 31-38). Ginter et al. disclose creating and partitioning VDE objects by placing meta-data (e.g. author's name, creation date) into them, and assigning rights associated with them and/or object content (e.g. publisher and/or content creator respectively) (see at least Fig. 5a (300); col. 256, lines 32-65). Ginter et al. disclose chain of handling that permits electronic works to be linked to online accounts (see at least col. 14, lines 38-65; col. 177, line 54 through col. 178, line 4). Ginter et al. further disclose permission records specifying various control relationships between objects and users, supporting single access (e.g. one-to-one relationship between a user and a right user), group access (any number of people may be authorized as a group), and by example using a law firm, linking

Attachment for PTO-948 (Rev. 03/01, or earlier)
6/18/01

The below text replaces the pre-printed text under the heading, "Information on How to Effect Drawing Changes," on the back of the PTO-948 (Rev. 03/01, or earlier) form.

INFORMATION ON HOW TO EFFECT DRAWING CHANGES

1. Correction of Informalities -- 37 CFR 1.85

New corrected drawings must be filed with the changes incorporated therein. Identifying indicia, if provided, should include the title of the invention, inventor's name, and application number, or docket number (if any) if an application number has not been assigned to the application. If this information is provided, it must be placed on the front of each sheet and centered within the top margin. If corrected drawings are required in a Notice of Allowability (PTOL-37), the new drawings **MUST** be filed within the **THREE MONTH** shortened statutory period set for reply in the Notice of Allowability. Extensions of time may **NOT** be obtained under the provisions of 37 CFR 1.136(a) or (b) for filing the corrected drawings after the mailing of a Notice of Allowability. The drawings should be filed as a separate paper with a transmittal letter addressed to the Official Draftsperson.

2. Corrections other than Informalities Noted by Draftsperson on form PTO-948.

All changes to the drawings, other than informalities noted by the Draftsperson, **MUST** be made in the same manner as above except that normally, a highlighted (preferably red ink) sketch of the changes to be incorporated into the new drawings **MUST** be approved by the examiner before the application will be allowed. No changes will be permitted to be made, other than correction of informalities, unless the examiner has approved the proposed changes.

Timing of Corrections

Applicant is required to submit the drawing corrections within the time period set in the attached Office communication. See 37 CFR 1.85(a).

Failure to take corrective action within the set period will result in **ABANDONMENT** of the application.
